OEL-470-65

26 April 1965

MEMORANDUM FOR: Deputy Assistant Director for Intercept Operations

SUBJECT : [REDACTED]-TM21, dated 15 April 1965

1. Copies 6 through 10 of subject report have been forwarded for your review.

25X1A

2. [REDACTED] considers this report in a "draft" stage at present. He solicits our comments and criticisms. Since the report deals largely with collection requirements and operational factors, your critique of this work is particularly important so that we can proceed in an orderly manner with equipment procurement.

25X1A

3. As noted in a separate memo [REDACTED] plans a formal presentation to OEL on 10 May. At that time I propose that we supply any feedback regarding this report. In order that our point of view may be more effectively presented to [REDACTED], I believe that we should prepare an agenda of our comments. Chief, GSD will coordinate this preparation. They should be received, however, no later than 5 May.

25X1A

4. While I have not reviewed the document as yet, I wish to stress its importance. I believe that if it is in a convenient form and should reflect not only [REDACTED] opinion, but also our current thinking as well, so it can serve as a planning document for Sites I and II over the next several years.
